PROFESSIONAL PROFILE

Professional illustrator with a digital media background. I create unique designs and adapt them to graphic, website or print related projects,

WORK EXPERIENCE

G.A. Studios
Digital Media Artist Oct 2002 - Present

Create illustrations, graphic design, print related media and website themes and other digital media. To provide clients with a unique digital design, web site or print media that met their needs. Created original graphic concepts, templates standards and formats. Designed the roughs, mock-ups and final comps for printing and digital media. Utilized various image sources as well as created original art for the project. Finished all designs on time and with documented paperwork of the process until completed.

White Wolf Designz
Graphic and Website Design May 2006 - Dec 2012

Developed themes and or graphic designs to provide clients with a unique web site or print media that met their needs. Created original graphic concepts, templates standards and formats. Designed the roughs, mock-ups and final comps for printing and digital media. Utilized various image sources as well as created original art for the project. Finished all designs on time and with documented paperwork of the process until completed.

Pathways Consulting Group Canada
Video Tutorials and Print Editor Oct 2012 - Dec 2012

Transferred older MS Word document files and recreated them using InDesign into internet ready .PDF files. Created English video tutorials for the clients website. Wrote the script, screen-captured the actions needed for the specific tutorial. Then added a voice over to the final project.
